Safety Officer: Lyle Stockinger
4125 Shamrock
Boise, ID 83704
(208-375-6430)

MEETING NOTICE

Our next ISS meeting will be held at 7:30 PM, Thursday, February 1, 2007, at the WARBIRD Museum in Nampa.

This is a very important meeting with several significant items on the agenda. Please make every effort to attend this one!

Voting for 2007 officers: at last meeting it was suggested and approved that the 2006 officers be nominated to continue to serve this year.

We need to discuss and vote whether or not to have a US Scale Masters Contest this year:

Scale Masters has again changed the rules on us! These changes now prohibit many of our local past contestants to fly in the Open class. This could also effect the participation we usually get from out of town contestants and could have serious financial consequences for ISS. We must decide if it's worth taking on that risk. If we decide against the Scale Masters our options are to have a strictly ISS contest like we used to in the past or a scale fly-in. Every one, including out of town pilots, are welcome. This is our hobby and should remain FUN. The purpose of our club is primarily to promote scale building and flying in Idaho.

Following our final decision we need to prepare for whatever we decide.

Last, but not least, we need to collect the unpaid 2007 dues.

See you there!
