

Nampa Model Aviators Meeting June 1, 2017

Presidents Report: Following a burgers and dogs barbeque hosted by Jack Read and Tex Lokker, club President Dennis Kirouac opened the May 2017 NMA Meeting at 7:00. There were 21 members present.

- Dennis reminded the members to not launch or land aircraft from the grass between the runway and the tables. Keep aircraft to the north of the inner edge of the runway. Also fuel and gas flyers are reminded to use the metal plates to catch fuel residue and to not leave them on the grass when you're finished flying.
- **MOTION:** A motion made, seconded and unanimously voted to approve the May minutes as provided by Email.

Treasurers Report:

- Mike Nipp provided the Treasurers Report. A rundown of both accounts was presented. Because we are doing our own lawn mowing the savings account is growing each month.

Safety Report:

- Safety Officer Bruce Chandler provided the safety report. We had no problems or safety issues in the past month.
- Bruce asked Ron Landram to fly one of his camera drones to demonstrate what 400 feet looked like. Ron did so but could only get the drone to an altitude of 300 feet because he had the altitude limiter set to that height and forgot to change the setting. However, at 300 feet the drone was almost out of sight.

Old Business:

- The annual public day is scheduled for June 17th. The members indicated that they would not want a landing fee. One competitive event, the bomb drop will be held.
- Bruce Chandler still needs volunteers to help with the lawn maintenance. Mowing will be done on Thursdays. Contact Bruce or put your name on the list located on the bulletin board.

New Business:

- Mike Nipp said that a new video camera will soon be installed. Member Tom Starr said he would fund it. The camera will be installed soon.

The meeting was adjourned by motion at 7:45 p.m.

Respectfully submitted by:
Ron Landram, Secretary

Approved by:
Dennis Kirouac, President
